

**SIMONSWERK  
GROUP**

# It all hinges on excellence.

Our vision. We are the  
global market leader for  
premium hinge systems

It all hinges on excellence.

## Global market leader – because only perfection will do

Our vision is to be the global market leader for premium hinge systems.

Our aim is to gain a relevant market share in the defined target markets through our innovative products and impressive service offer for our customers. The SIMONSWERK GROUP focuses on its core products and makes strategic use of its resources to achieve sustainable and profitable growth.

**“Our vision drives us to steadily increase our market share in specific target markets through innovative products and impressive service.”**

**David Bannas**  
CFO

# SIMONSWERK GROUP

### **More than 130 years of experience**

## For our customers and partners

The SIMONSWERK GROUP operates through different business models. We develop perfect solutions that meet specific market requirements, whether for the construction project business or for industrial door manufacturers or hardware distributors and fabricators.

In order to support our customers and decision-makers as a professional partner according to their different requirements, we base our actions on our success factors.

### Customer focus

We inspire our customers for the SIMONSWERK GROUP by knowing and understanding their needs.

### Innovation

We rely on continuous innovation and improvement of all our products, services, processes, and the technologies we use to achieve sustainable success.

### Reliability

“We do what we say!” And therefore we stand for convincing product and process quality as well as for reliable collaboration with everyone involved.

### Excellence

A significant close of passion and excellent solutions for our customers shape how we work and drive our motivation – we always aim for the best possible solution.

### Logistical performance

Our great delivery performancee with highly tailored delivery times and quantities, as well as customer-specific supply chain solutions, allow us to offer our customers significant added value.

### Digital expertise

Digital expertise is just as important to us as efficient business models and digital marketing solutions for our customers across the entire value chain.

### Efficiency

We operate with highest efficiency due to our profit-oriented, cost-conscious approach and see ourselves as an efficient cost leader.

### Brand

Our brand combines all our success factors into an outstanding overall performance for our customers.

We offer hinge systems for many different fields of application and materials.

## Our corporate values

We all form the DNA of the SIMONSWERK GROUP and work closely together as equals.

Our corporate values are the basis for the successful cooperation of our international teams, complemented by an informal working environment.

### Team

- respect
- feedback
- openness
- appreciation
- togetherness
- reliability

### Behaviour

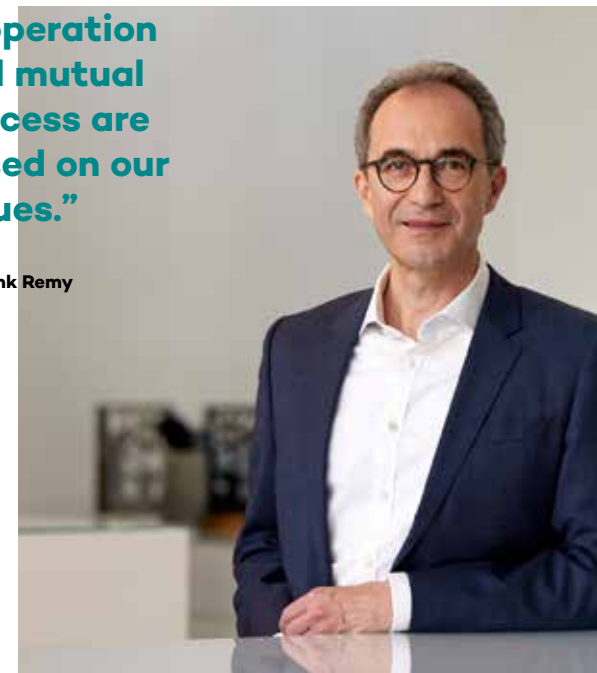

- error acceptance
- trustfulness
- curiosity
- constant questioning
- responsibility
- fairness

### Sustainability

- economic sustainability
- partnership
- environmental consciousness

“Our international cooperation and mutual success are based on our values.”

Dr. Frank Remy  
COO
